² Capitalized terms not defined herein are described in the General Instructions for Completing the W. R. Grace & Co. ZAI Proof of Claim Form.

PLEASE TAKE NOTICE THAT on _____, 2008 the Honorable Judith K. Fitzgerald, United States Bankruptcy Judge, United States Bankruptcy Court for the District of Delaware (the "Court"), having jurisdiction over the chapter 11 cases of W. R. Grace & Co. and certain of its affiliates (collectively, the "Debtors" or "Grace"), entered a ZAI Bar Date Order in the above-referenced bankruptcy cases.

The Court has established **October 31, 2008** at 5:00 P.M. Eastern Time (the "ZAI Bar Date") as the last date and time for all persons and entities including without limitation, each individual, partnership, joint venture, corporation, estate, trust and governmental unit **who have ZAI Claims (as defined herein)** against any of the Debtors or their predecessors-in-interest, to file a ZAI Proof of Claim.

1. WHO MUST FILE A ZAI PROOF OF CLAIM:

You MUST file a ZAI Proof of Claim if you have a ZAI Claim. ZAI Claims are defined as follows:

ZAI Claims are claims as defined under section 101(5) of the Bankruptcy Code and include claims that relate to the cost of abatement or removal, diminution of property value or other economic loss allegedly caused by Zonolite Attic Insulation manufactured by the Debtors and installed in buildings that are located in the United States of America. Zonolite Attic Insulation Claims are those claims against, or any debt, obligation or liability of, one or more of the Debtors, creating a right to payment, whether or not such right is reduced to judgment, liquidated, unliquidated, fixed, contingent, matured, unmatured, disputed, undisputed, legal, equitable, secured, or unsecured, and whether such claim, debt, obligation or liability is in the nature of or sounding in tort, contract, warranty or any other theory of law or equity, relating to or arising by reason of, directly or indirectly, property damage, including, but not limited to, diminution in the value thereof, or environmental damage or economic loss caused or allegedly caused, directly or indirectly, by the Zonolite Attic Insulation sold, supplied, produced, specified, selected, distributed or in any way marketed by one of the Debtors -- and arising or allegedly arising, directly or indirectly, from acts or omissions of one or more of the Debtors, including, but not limited to, all claims, debts, obligations or liabilities for compensatory and punitive damages.

You MUST file your ZAI Proof of Claim, on or before the ZAI Bar Date of **October 31, 2008**.

IN THE EVENT THAT PRIOR TO THE ZAI BAR DATE, YOU FILED A PROOF OF CLAIM FOR A ZAI CLAIM USING OFFICIAL FORM 10 OR ANY OTHER PROOF OF CLAIM FORM, YOU MUST REFILE YOUR CLAIM ON THE SPECIALIZED, COURT-APPROVED ZAI PROOF OF CLAIM FORM ON, OR BEFORE, THE ZAI BAR DATE OR YOUR CLAIM SHALL BE BARRED AND DISALLOWED.

In the event that prior to the ZAI Bar Date you filed a proof of claim for any claim in these cases that you may have **other than** your ZAI Claim, you **do not** need to refile your other non-ZAI Claims.

Under Section 101(5) of the Bankruptcy Code and as used in this notice, the word "claim" means, among other things, (a) a right to payment, whether or not such right is reduced to judgment, liquidated, unliquidated, fixed, contingent, matured, unmatured, disputed, undisputed, legal, equitable, secured, or unsecured; or (b) a right to an equitable remedy for breach of performance if such breach gives rise to a right to payment, whether or not such right to an equitable remedy is reduced to judgment, fixed, contingent, matured, unmatured, disputed, undisputed, secured or unsecured.

2. WHO DOES NOT NEED TO FILE A PROOF OF CLAIM

(a) The ZAI Bar Date, and the need to file a ZAI Proof of Claim, applies only to holders of ZAI Claims. You should not file a claim now if your claim relates to property located outside of the United States. A separate bar date process may be established at a later time to resolve claims related to property outside of the United States.

THE FACT THAT YOU HAVE RECEIVED THIS NOTICE DOES NOT NECESSARILY MEAN THAT YOU HAVE A ZAI CLAIM OR THAT THE DEBTORS OR THE COURT BELIEVE YOU HAVE SUCH A CLAIM.

The Honorable Judith K. Fitzgerald
United States Bankruptcy Judge

Your Claim Must Be Filed By October 31, 2008

W. R. Grace and its related entities ("Grace") have filed for protection under Chapter 11 of the U.S. Bankruptcy Code. If your home has vermiculite loose-fill attic insulation, you may have a property claim against Grace.

What Is Vermiculite Loose-Fill Attic Insulation?

Vermiculite was used by Grace in certain non-roll home attic insulation that was sold from the 1920/1930s to 1984. Some of Grace's vermiculite attic insulation contains naturally-occurring asbestos and was sold under the name of "Zonolite Attic Insulation" ("ZAI") and under other brand names, including: Attic Fill, House Fill, Home Insulation, Zonolite Insulating Fill, Econofil, Quiselle Insulating Fill, Sears Micro Fill, Ward's Mineral Fill, Wickes Attic Insulation,

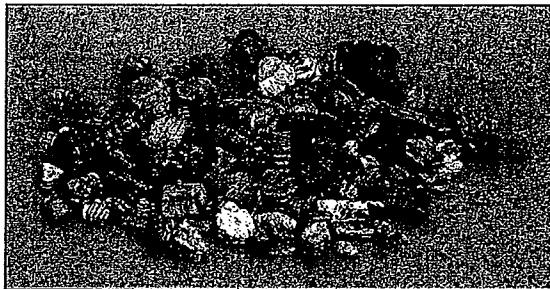

Attic Plus, Mica Pellets Attic Insulation, Unifil and Cashway Attic Insulation.

What Does It Look Like And Where Is It Located?

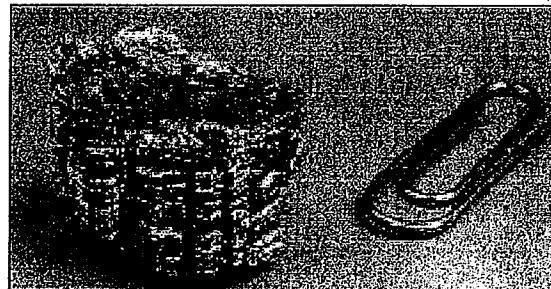

ZAI is an insulation product typically used in home attics and sometimes in walls. The granules are small, accordion-shaped nuggets and may have a silvery, gold translucent or brownish cast that may also appear black or gray over time. ZAI may be found underneath other insulation installed at a later date.

What Are ZAI claims?

ZAI claims could include, among others, the cost of abatement or removal, the diminution of property value, economic loss, or other property-related claims caused by ZAI manufactured by Grace.

FIRM OVERVIEW

Kinsella/Novak Communications, LLC ("KNC") is a nationally-recognized advertising and legal notification consulting firm specializing in the design and implementation of class action and bankruptcy notification programs to reach unidentified class members and claimants.

KNC has developed and directed some of the largest and most complex national notification programs in the country, primarily in antitrust, bankruptcy, consumer fraud, mass tort and product liability litigation. Specific cases have involved, among others, asbestos, breast implants, home siding and roofing products, infant formula, pharmaceuticals, polybutylene plumbing, tobacco and Holocaust claims. The firm has developed or consulted on over 250 notification programs and has placed over \$160 million in media notice.

KNC develops advertisements, press materials, Web sites and other notice materials that bridge the gap between litigation complexities and the need for a clear and simple explanation of legal rights. The firm designs and produces notices in "plain language." KNC employs industry-recognized tools of media measurement to quantify the adequacy of the notice for the court.

TECHNICAL APPROACH

KNC's technical approach is based on its expertise as a leading provider of notice in class actions, knowledge of court-approved notice programs at the state and federal levels and years of experience in designing and implementing legal notification programs both nationally and internationally.

KNC begins by conducting detailed research on the claims that are the subject of the class action and how they relate to the affected population. This analysis yields the demographic characteristics of claimants — such as age, gender, income, and education level — and the geographic distribution of claimants. This research provides the parameters for identifying and locating claimants and shapes the scope of the notice program.

Specifically, KNC:

- Reviews demographic and product information provided by the client, performs independent research and establishes a demographic profile of the target audience. All media selections are based on this profile to ensure the optimum reach of potential claimants and frequency of message exposure.
- Examines the geographic distribution of potential claimants to determine effective geographic coverage.
- Evaluates and compares the relative effectiveness of media vehicles — consumer magazines, newspapers, specialty publications, broadcast television, radio and the Internet — in reaching the target audience.
- Analyzes publications using syndicated data sources and tools, such as the Audit Bureau of Circulation statements, which certify how many readers buy or obtain copies of publications, and MediaMark Research, Inc., which measures how many people open or read publications.
- Analyzes syndicated data from comScore and/or Nielsen/NetRatings for demographic composition of Internet Website visitors. Relies on Internet Advertising Bureau ("IAB") guidelines to account for gross impressions and unique users.
- Relies upon syndicated data from A.C. Nielsen for estimating television viewership. Other syndicated data and tools are used when appropriate.
- Selects media available during the established notice period ensuring timely notice to claimants.
- Creates and implements all appropriate notice communications, including published notice, press releases, television spots, Internet advertising and Web sites.

In re W.R. Grace & Co., Chapter 11

- Ensures that published notices and long form notices are written in "plain language."
- Uses established advertising relationships to negotiate with advertisers to secure optimum placement with respect to the media habits of the target audience.
- Designs and maintains a Web site to enable claimants to access all relevant information including long form notices, claim forms and court documents. Provides registration and email capabilities on the site.
- Integrates all aspects of the notification program with designated claims administrators.
- Provides advice, affidavits, depositions and court testimony with respect to the design and implementation of the notification program.

RELEVANT MANUFACTURING HISTORY

W. R. Grace ("Grace") entered into the vermiculite business through its 1963 acquisition of the assets of the Zonolite Company. The Zonolite Company's assets included the world's largest vermiculite mine and mill in Libby, Montana, another mine and mill in South Carolina and various manufacturing plants. Vermiculite is a mica-like mineral that expands after heating. Vermiculite ore from the Libby Mine may contain naturally occurring asbestos.

ZAI is a loose-fill vermiculite used as insulation in attics and was one of the commercial products made from Grace's processed vermiculite. This product was sold from the 1920s or 1930s to 1984 and may have been marketed by other companies under private labels.¹

¹ Loose-fill vermiculite attic insulation produced by Grace was also provided to companies primarily in the New England area, believed to be Wickes Inc., Lumbermen's Mercantile Buyers Corporation, and Carter, which may have marketed the insulation under their private labels.

SITUATION ANALYSIS

This Bar Date notice plan ("Notice Plan") is submitted in connection with *In re W.R. Grace & Co., et al.*, Chapter 11, Case No. 01-01139 in the United States Bankruptcy Court, District of Delaware. This Notice Plan targets holders and potential holders of Zonolite Attic Insulation Claims ("ZAI Claimants") in the United States. ZAI claims include, among others, the cost of removal, the diminution of property value or economic loss, or other claims caused by ZAI manufactured by Grace.

The purpose of the Notice Plan is to outline procedures to provide fair and adequate notice to ZAI Claimants of the Bar Date. The plan is consistent with notice programs KNC designed and implemented in other asbestos bankruptcies and class actions, as well as consumer class actions, all of which have met court approval. To develop the Notice Plan, KNC relied on information provided by Grace and its experts, on research previously conducted in other asbestos litigation and on its experience in designing and executing similar plans.

In re W.R. Grace & Co., Chapter 11

PROPOSED NOTICE PLAN OVERVIEW

The following four-part Notice Plan is recommended:

- Direct notice by mail to all known ZAI Claimants and their counsel;
- Broad national published notice through the use of national paid media (television, print publications and Internet) and press outreach ("earned media");
- Earned media through a press release sent to major national print and electronic outlets; and
- Notice by mail to third-party "do-it-yourself" ("DIY") publications whose subscribers may be ZAI Claimants.

The proposed Notice Plan carefully considers information provided by Grace and research conducted by KNC, including:

- The demographics of Homeowners, which would include ZAI Claimants – age, gender and other characteristics;
- The media vehicles through which Homeowners normally receive information.
- Consumer publications targeted to "DIY" homeowners.

In re W.R. Grace & Co., Chapter 11

DIRECT MAIL NOTICE

The "ZAI Claims Bar Date Notice Package," consisting of the ZAI Claims Bar Date Notice, the ZAI Proof of Claim Form and the General Instructions for completing the ZAI Proof of Claim Form, will be mailed to:

- Known ZAI Claimants;
- Counsel of record for all readily identifiable ZAI Claimants with pending ZAI claims;
- Potential ZAI claimants on lists maintained by counsel participating in the proceedings; and
- All individuals who call the toll-free telephone number or write and request a copy of the ZAI Claims Bar Date Notice Package from the Official Claims Agent.

The ZAI Claims Bar Date Notice Package will also be available directly from the Grace Chapter 11 Web site.

In re W.R. Grace & Co., Chapter 11

PAID MEDIA METHODOLOGY

KNC notice programs directed to claimants: (1) identify the demographics of claimants and establish a target audience; (2) outline the methodology for selecting the media and other program elements and how they relate to product usage or exposure; and (3) provide results that quantify for the court the adequacy of the notice based upon recognized tools of media measurement.

In the wake of the Supreme Court's decisions in *Daubert v. Merrell Dow Pharmaceuticals*, 509 U.S. 579 (1993) and *Kumho Tire Company v. Carmichael*, 526 U.S. 137 (1999), the reliability of a notice expert's testimony should be tested against the standards developed within the media industry for determining to what degree and at what frequency a target audience has been reached. In assessing the expert's reliability, the court must determine whether the testifying expert "employs in the courtroom the same level of intellectual rigor that characterizes the practice of an expert in the relevant field." (526 U.S. at 152). That showing would likely require evidence that the expert's data and methodology are similar to that used by professionals in the relevant field.

In keeping with the *Daubert* and *Kumho* rulings, KNC employs the methodology and measurement tools used in the media planning and advertising industry for designing and measuring the adequacy of a paid media program to reach a particular audience.

Choosing a target audience encompassing the characteristics of ZAI Claimants is the first step in designing the paid media program. Media vehicles are chosen based on their ability to provide effective and cost-efficient penetration of the target audience. The selected media vehicles are then measured against the target audience to quantify the *reach* of the media program and the *frequency* of exposure to the media vehicles. *Reach* and *frequency* estimates are two of the primary measurements used to quantify the media penetration of a target audience.

- *Reach* is the estimated percentage of a target audience that is exposed one or more times through a specific media vehicle or combination of media vehicles within a given period.
- *Frequency* is the estimated average number of times an audience is exposed to a vehicle carrying the message within a given period of time.

The measured delivery of media to the target audience will be representative of delivery to ZAI Claimants.

In re W.R. Grace & Co., Chapter 11

TARGET AUDIENCE

KNC used information provided by Grace relating to their asbestos business and asbestos claims history to develop the Notice Plan. This information was provided in the form of:

- An extensive briefing by counsel to the Debtors and by Grace counsel and staff regarding the asbestos history of Grace; and
- Information on Grace's vermiculite and asbestos-containing products including Zonolite Attic Insulation.

To develop a profile of the demographics and media habits of Homeowners, including potential ZAI Claimants, KNC analyzed syndicated data available from the *2007 Doublebase Survey*² from MediaMark Research, Inc. ("MRI").

MRI is the leading U.S. supplier of multimedia audience research. As a nationally accredited research firm, MRI provides information to magazines, television, radio, Internet and other media, leading national advertisers and over 450 advertising agencies – including 90 of the top 100 in the United States. MRI's nationally syndicated data are widely used by these companies as the basis for the majority of the media and marketing plans written for advertised brands in the United States.

MRI provides data on audience size, composition and other relevant factors pertaining to major media vehicles. MRI presents a single-source measurement of major media, products, services and in-depth consumer demographic and lifestyle characteristics.

In selecting the target audience for purposes of purchasing media, KNC examined the demographics of Homeowners using MRI data. Print media can be measured against the precise audience of Homeowners. However, electronic media cannot be measured against Homeowners but rather can be measured against audiences based on age and/or gender. Because 77.9% of Homeowners are adults 35 years of age and older, the following broader target audience was selected:

- Adults 35 years of age and older ("Adults 35+")

² The study, conducted since 1979, surveys persons 18 years of age and older in the contiguous 48 states. MRI conducts more than 26,000 personal interviews with consumers in two waves annually each lasting six months and consisting of 13,000 interviews. Produced annually by MediaMark Research, Inc., the *Doublebase Survey* consists of two full years of data drawn from over 50,000 respondents. Consumer information is recorded on 500 product/service categories, 6,000 brands and various lifestyle activities. Respondents are selected based on the ability to project their responses nationally.

In re W.R. Grace & Co., Chapter 11

DEMOCRAPHICS

Since all media is purchased based on demographics, it is critical to determine the age, gender and other demographic characteristics of the target audience in order to design a media-based notice program to adequately reach ZAI Claimants.

It is believed that ZAI was installed nationally with installations more likely in the northern United States due to colder weather conditions. ZAI was marketed from the 1920s or 1930s to 1984. While original installations of the product were primarily undertaken by DIY homeowners, there are likely to be many individuals who did not install ZAI themselves but who own homes with the insulation.

Using MRI, KNC examined the demographics of Homeowners, which encompasses ZAI Claimants as indicated in the table below:

DEMOGRAPHICS	HOMEOWNERS
Gender	
Male	48.0%
Female	52.0%

In re W.R. Grace & Co., Chapter 11

PAID ADVERTISING

The core of the Notice Plan is paid media placements in national newspaper supplements and consumer magazines, supplemented by television and Internet activity.

An analysis of the media habits of Homeowners indicates that they are above average newspaper readers and average consumers of all other media. Print publications and television programming targeted to Homeowners will reach a high percentage of ZAI Claimants nationally. Internet activity will provide an opportunity to reach ZAI Claimants who may be lighter print and television consumers.

For the purpose of evaluating the strength and efficiency of the media, television, print publications and Internet were measured against Adults 35+ to establish the *reach* of the media program and the *frequency* of exposure to the media vehicles.

PRINT ADVERTISING DESIGN AND PLACEMENT

The published form of notice ("ZAI Published Bar Date Notice") is designed as an advertisement to capture and hold the attention of ZAI Claimants. The ZAI Published Bar Date Notice is attached as Exhibit B to the *Debtors' Motion for an Order (A) Establishing a Proof of Claim Bar Date for Zonolite Attic Insulation Claims, and (B) Approving the Related Proof of Claim Form, Bar Date Notices, and Notice Program* ("the Motion"). The headline clearly targets and addresses the ZAI Claimants. The text uses subheads, product description and simple language to inform clearly rather than confuse. To facilitate identification of vermiculite, pictures are included. The Web site address and toll-free number are boldly displayed to allow ZAI Claimants to obtain complete information in the form of the ZAI Claims Bar Date Notice Package.

Magazines and newspaper supplements were analyzed for their composition³ and coverage⁴ of Adults 35+.

The ZAI Published Bar Date Notice, designed as a black & white advertisement, will be placed in the following publications:

NEWSPAPER SUPPLEMENTS

Parade, *USA Weekend* and *American Profile*, publications known as newspaper supplements, are primarily inserted into weekend or Sunday editions of 2,361 newspapers (three newspapers carry all three newspaper supplements) reaching every media market in the country. Newspaper supplements provide coverage in all 50 states and the District of Columbia (see Exhibit 1). KNC recommends the following activity:

³ Composition is the percentage of target audience in readership.

⁴ Coverage is the percentage of target audience reached.

In re W.R. Grace & Co., Chapter 11

- A magazine-page ad (6-7/20" x 7-3/4") will be placed once in *American Profile* magazine with an estimated circulation of 9,800,000. The readership⁵ of *American Profile* among Homeowners is 22,455,000. The readership of *American Profile* among Adults 35+ is 21,476,000.
- A magazine-page ad (7" x 10-1/4") will be placed once in *Parade* magazine with an estimated circulation of 32,200,000. The readership of *Parade* among Homeowners is 56,268,000. The readership of *Parade* among Adults 35+ is 55,923,000.
- A magazine-page ad (7" x 10-1/2") will be placed once in *USA Weekend* with an estimated circulation of 23,000,000. The readership of *USA Weekend* among Homeowners is 38,765,000. The readership of *USA Weekend* among Adults 35+ is 38,264,000.

CONSUMER MAGAZINES

KNC recommends the following activity in consumer magazines:

- A full-page ad (7-3/8" x 10") will be placed once in *Better Homes and Gardens* with an estimated circulation of 7,600,000. The readership among Homeowners is 30,834,000. The readership among Adults 35+ is 30,560,000.
- A full-page ad (7-5/8" x 10") will be placed once in *Ebony* with an estimated circulation of 1,450,000. The readership among Homeowners is 5,232,000. The readership among Adults 35+ is 6,557,000.
- A full-page ad (5-3/4" x 9") will be placed once in *National Geographic* with an estimated circulation of 5,000,000. The readership among Homeowners is 23,058,000. The readership among Adults 35+ is 22,794,000.
- A full-page ad (7" x 10") will be placed two times in *People* with an estimated circulation of 3,450,000. The readership among Homeowners is 28,654,000. The readership among Adults 35+ is 25,939,000.
- A full-page ad (7" x 10") will be placed once in *People en Español* with an estimated circulation of 515,000. The readership among Homeowners is 2,566,000. The readership among Adults 35+ is 2,719,000.
- A full-page ad (4-3/4" x 6-3/4") will be placed once in *Reader's Digest* with an estimated circulation of 8,000,000. The readership among Homeowners is 28,899,000. The readership among Adults 35+ is 30,846,000.

⁵ The readership estimates for *Parade* and *USA Weekend* are reflective of the broader readership measurement of the newspaper carrier groups into which these supplements are inserted. A custom study, conducted by MRI in 2003, indicates that the actual readership of the supplements is less than that of the carrier papers. While this study provided directional insight into the audience, the data provided is highly variable and insufficient for use in specific computation of reach and frequency. Therefore, the use of carrier paper readership for the newspaper supplements remains the accredited methodology and standard of the industry.

In re W.R. Grace & Co., Chapter 11

- A full-page ad (4-3/4" x 6-3/4") will be placed once in *Selecciones Reader's Digest* with an estimated circulation of 375,000. The readership among Homeowners is 1,243,000. The readership among Adults 35+ is 1,832,000.
- A full-page ad (6-7/8" x 10") will be placed two times in *U.S. News & World Report* with an estimated circulation of 1,500,000. The readership among Homeowners is 7,353,000. The readership among Adults 35+ is 7,840,000.

The following table provides readership for the target audience.

PUBLICATION	ADS	CIRCULATION	ADULTS 35+
<i>American Profile</i>	1	9,800,000	21,476,000
<i>Better Homes & Gardens</i>	1	7,600,000	30,560,000
<i>Ebony</i>	1	1,450,000	6,557,000
<i>National Geographic</i>	1	5,000,000	22,794,000
<i>Parade</i>	1	32,200,000	55,923,000
<i>People</i>	2	3,450,000	25,939,000
<i>People en Espanol</i>	1	515,000	2,719,000
<i>Reader's Digest</i>	1	8,000,000	30,846,000
<i>Selecciones Reader's Digest</i>	1	375,000	1,832,000
<i>U.S. News & World Report</i>	2	1,500,000	7,840,000
<i>USA Weekend</i>	1	23,000,000	38,264,000

In addition to the effective combined reach of the newspaper supplements and consumer magazines, other factors distinguished the selection of these individual publications:

- *American Profile, Better Homes & Gardens, Parade, People, National Geographic, Reader's Digest and USA Weekend* are among the highest read publications among Adults 35+.
- *Ebony, People en Espanol* and *Selecciones Reader's Digest* provide targeted reach of the ethnic segments of Adults 35+.
- *U.S. News & World Report* quickly accumulates readership and provides timely and efficient notice to readers.

In re W.R. Grace & Co., Chapter 11**TV ADVERTISING DESIGN AND PLACEMENT**

The television buy will consist of network broadcast and national cable television. Thirty-second spots⁶ will be aired over a two-week time period.

Television is an intrusive medium that generates rapid awareness and provides effective reach of the audience. The television spot is designed to provide both audio and visual information to alert individuals that they may be ZAI Claimants in the bankruptcy and that they should seek further information through the toll-free number or Web site to determine their status as a claimant and procedures to file a claim. The tone of the spot will be similar to the print executions, alerting the potential ZAI Claimants to the nature of the litigation and stressing the importance of the information to follow (See Exhibit B to the Motion).

The television media buy will provide the following estimated delivery:

- An estimated 87 Targeted Rating Points⁷ ("TRPs") to Adults 35+.
- An estimated 134,058,300 Gross Impressions⁸ to Adults 35+.

The planned daypart⁹ mix or times of day selected for airing the spots is as follows:

DAYPART	ADULTS 35+ TRPS
Early Morning News 5:00 AM – 9:00 AM (M-F) 6:00 AM – 11:00 AM (Sa-Su)	16.0
Daytime 9:00 AM – 4:00 PM (M-F)	15.0
Network News 5:30 PM – 6:00 PM (M-Su)	31.0
Cable 6:00 AM – 12:00 M (M-Su)	25.0

INTERNET ADVERTISING DESIGN AND PLACEMENT

According to MRI, 78% of Adults 35+ have access to the Internet whether at home, work, a library, school or other location. Over 60.0% of Adults 35+ accessed the Internet in the past 30 days and at least 43.0% access the Internet one or more times per day. Internet advertising delivers an immediate message and allows the viewer of an advertisement to instantly link to a Web site for further information.

⁶ The visuals used in the television spot and the Publication Bar Date Notice are for demonstration purposes only. The final video footage and photographs will be similar and consistent with the examples provided.

⁷ Each target rating point represents impressions equal to 1% of the target population. TRPs are the sum of the ratings for all the spots in the schedule, including duplication.

⁸ Gross Impressions are the total number of times a media vehicle containing the notice is seen. It is a duplicated figure, as some viewers will see several television programs containing the notice.

⁹ Time segments into which the broadcast day is divided. In television, the dayparts are usually daytime (morning and afternoon), early fringe, prime time and late fringe. Other designations can be used such as early news or late news.

In re W.R. Grace & Co., Chapter 11

The banner advertisements will be designed to alert Internet users that they may be ZAI Claimants in the bankruptcy through the use of a bold headline. The short, simple headline will enable ZAI Claimants to quickly determine if they are potentially affected. When visitors click on the banner advertisement, they will be connected automatically to the informational Web site, www.graceclaims.com.

KNC recommends using Internet advertising to provide additional notice opportunities beyond the broad-reaching print and television program to ZAI Claimants. Internet advertising will appear across a wide range of Web sites enabling maximum exposure opportunities to reach the broad audience of Adults 35+.

The Internet buy will consist of:

- 24/7 Real Media is a network that represents over 900 Web sites including sites related to health, fitness and news and information, some of which are proprietary and confidential. A partial list of Web sites in the 24/7 Real Media Network is attached hereto as Exhibit 2.
- Banner advertisements of various measurements will appear, on a rotating basis, on Web sites that are part of the 24/7 Real Media Network delivering an estimated 138,888,889 gross impressions to Adults 35+.
- The banner advertisements will appear for a 30-day period, or until the gross impressions are delivered.

In re W.R. Grace & Co., Chapter 11

MEDIA DELIVERY

The media program, using national consumer magazines and newspaper supplements, broadcast television and Internet delivers, in the aggregate, the following reach and frequency of exposure measurements¹⁰:

- The estimated unduplicated reach of Adults 35+ is 90.7% with an estimated average frequency of 3.7 times.
- The plan delivers an estimated 551,475,189 gross impressions for Adults 35+. It is estimated that Adults 35+ will see the media vehicles carrying the notice will be seen over 551 million times.

¹⁰ The reported reach figure represents the estimated percentage of *individuals* that will have an opportunity to see the Publication Notice. It is a net number that factors out duplication as a result of target audience members seeing several media vehicles (print, television, Internet) that contain the Notice.

In re W.R. Grace & Co., Chapter 11

EARNED MEDIA

The thrust of the earned media program is to amplify the notice to ZAI Claimants through the use of free media. The earned media portion of this Notice Plan will augment the paid media plan developed. The third-party endorsement from reliable sources such as the news media can add immeasurable value to outreach efforts.

Outreach to print and electronic media will focus primarily on major radio and television outlets, key daily newspapers, wire services and newspaper bureaus in the U.S. A press release highlighting the toll-free telephone number and Web site address that ZAI Claimants can call or visit for complete information will be distributed as follows;

- On PR Newswire's Full National U.S. Circuit reaching over 4,000 media outlets and 3,600 Web outlets.

In re W.R. Grace & Co., Chapter 11

DO-IT-YOURSELF PUBLICATIONS

Because individuals who are DIY homeowners may re-model or work in the attics of their homes in which Zonolite may be present, notice to publications that target these individuals is suggested. A press release and an explanatory cover letter, requesting that the publication advise their readers of the claims process, will be sent to the following publications, which have a high readership among DIY homeowners:

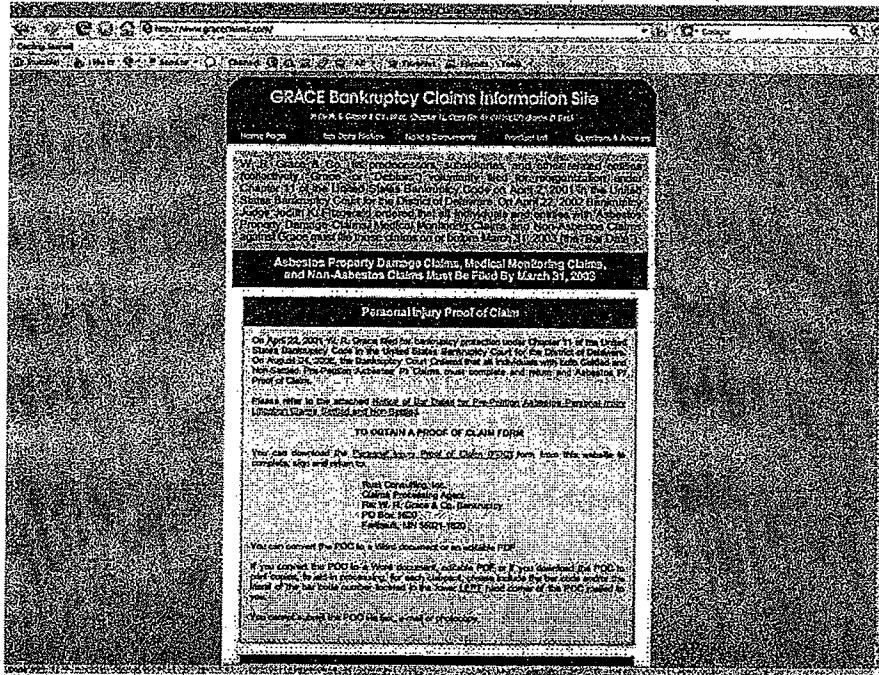

- *Ace Homeplace* with a circulation of 500,000.
- *Better Homes & Gardens Do It Yourself* with a circulation of 535,000.
- *Better Homes & Gardens Remodel* with a circulation of 400,000.
- *Extreme How-To* with a circulation of 90,000.
- *The Family Handyman Magazine* with a circulation of 1,169,016.
